A contemporary kitchen from The Kitchen Collection will be a real design masterpiece.

*its all in

# YOUR CONTEMPORARY STYLE

Our contemporary range of kitchens can create a unique distinctive look, from sleek super-matt Urban kitchens that include the latest anti-scratch and anti-fingerprint technology, to Alta high gloss reflective designs that can make a space seem bigger and brighter. Our collection also includes a full paint to order colour palette to pick from as well as the latest timber effect designs with striking walnuts and the rustic charm of oak.

Choose from a single range throughout your kitchen, or be adventurous and use a contrasting woodgrain finish. Alta Rustic Oak and Anthracite, or Urban Grey Walnut and Pebble complement each other perfectly.

For an ultra sleek modern design choose a handleless style such as New York with its integrated handle trim, or our Inline trim handle options. These can accentuate the clean unbroken lines of the trims and embellish the contemporary look.

# CLASSIC

Our Classic collection of versatile designs provide a range of truly striking kitchens - everything from simple shaker designs to timeless paint to order in-frame styles. These kitchens have been crafted for those who prefer the 'classical' approach to kitchen style.

*its all in  
the detail*

# YOUR CLASSIC STYLE

This range of kitchens exude warmth and character to form a wonderful welcoming feel. From classic smooth shaker doors in subtle tones, to our painted ash veneered options available in several on-trend colours; you can create a country cottage style or a more sophisticated modern kitchen design.

All of our kitchen ranges can be styled to look more traditional or to take a modern twist on a classic design. The use of feature cabinets, cornice and pelmet above and below wall cabinets, the handle choice and

the work surface make a big impact on the overall style.

The choice of colour is also influential with a traditional look being created by using colours such as Atlantic Green, Sage and Stone, complemented with an Oak work surface and aged brass handles. For a more modern look use Grey, White and deep Blue tones and select a chrome or matt black handle and contemporary thin work surface.

## Limiting our Environmental Impact

Our furniture has full FSC® certification assuring you that the wood used comes from responsibly managed forests with a full chain of custody. We've gained the BS EN ISO 14001:2004 quality standard which independently endorses our ongoing operational activities to limit our impact on the environment. Symphony is a member of the recycled packaging organisation, Valpack. This membership has been achieved by minimising packaging without compromising protection, and initiatives include utilising protective reusable blankets on deliveries where possible.

We take our environmental responsibilities seriously and built our South Yorkshire based manufacturing and Head Office facilities to BREEAM standards, including a biomass boiler that provides all the heating.

Symphony's iconic fleet of over 150 burgundy lorries is amongst the most fuel efficient on Britain's roads, due to the inclusion of Bluetec Euro 6 Mercedes Actros engines.
